

Do you want to work in a dynamic, fast-paced, innovative organization? Do you have a knack for finding hard to find talent? Did you ever think your passion for recruiting and talent acquisition could save a life? Keep reading!

Canadian Blood Services holds a unique position in the health care industry as a biologic's manufacturer committed to delivering a growing range of world class products and services. We work in a collaborative community of donors, volunteers, health care professionals, employees and corporate partners committed to saving and improving the lives of Canadians.

Canadian Blood Services is looking to hire a **Driver** in our **Vancouver** location. Our Drivers are responsible for much more than just driving. We look to our Drivers to: prepare daily vehicle inspection and driver logs, be familiar and comfortable working with computers, work hands-on with packaged blood product, frequently travel with a team, pitch in at our mobile clinics, and much more! Our drivers will be working very closely with our Clinic Services team and also with the general public—so an aptitude for customer service is imperative!

The incumbent operates and maintains Canadian Blood Services' vehicles, completes collection on mobile clinics, packs and transports blood products, supplies, employees, volunteers, donors and related equipment, as directed.

### **Job Description:**

Reporting to the Manager, Field Logistics, or designate, performs duties related to transporting personnel/donors by driving a vehicle with seating capacity of up to 25 passengers.

- Transports personnel and/or donors to and from clinics assisting in embarking and disembarking passengers
- Collects/delivers blood and blood products, equipment and/or supplies to/from Centre and to/from donor collection sites
- Sets up, prepares, arranges and dismantles appropriate donor clinic equipment by reference to site maps and equipment checklists
- Delivers blood and blood products to hospitals, storage facilities, airports and public carriers
- Prepares and organizes required blood product packaging materials such as boxes, filler packaging, ice/gel packs as required and temperature recorders and packs blood/specimens for transport to laboratory
- Performs pre-trip inspections and routine vehicle maintenance
- Reports equipment problems
- Prepares and packs clinic equipment
- Relieves Donor Service Representative during assigned breaks at clinics
- Completes collection at prep table including verification of labels
- Prepares and packs units and specimens and documents for transfer
- Seals collection pack tubing into the required number of segments
- Assists with the training of new drivers
- Maintains documentation such as logbooks and vehicle inspection reports
- Performs other related duties as assigned

### **Required Skills:**

- Grade 12 plus one years' recent related experience or an equivalent combination of education, training and experience
- Valid class IV (unrestricted) vehicle license
- Ability to communicate effectively both verbally and in writing
- Ability to deal with others effectively
- Physical ability to carry out the duties of the position
- Ability to organize work
- Ability to operate related equipment

### **Additional Information**
